

## **Enser Corporation Announces Merger with Redbolt Technologies**

**Cinnaminson, NJ – January 19<sup>th</sup>, 2007** – Enser Corporation, a 60-year old engineering services company, is proud to announce a Merger with Redbolt Technologies, a 5-year old engineering business solutions company. With this merger, Enser will combine Redbolt's, MCAD sales, training and services business.

With Redbolt's 50 years of combined experience in the CAD/CAM market, this relationship will allow Enser to more effectively service their existing PTC customers. The synergy of companies will provide the PTC engineering community a strong, stable relationship that will build upon the reputation of both businesses for customer service.

Enser is committed to making sure their clients' investment in PTC's entire suite of CAD/CAM/CAE and PLM products delivers value today and into the future. Enser provides practical knowledge, as well as advanced applications gained from 15 years of providing Pro/ENGINEER® services. The company provides total solutions that go above and beyond software sales and implementation. As the largest VAR User, with over 42 seats of Pro/ENGINEER and Windchill PDMLink and ProjectLink, Enser has a track record of success and expertise in understanding the technology to provide the right solution. In addition to selling and servicing PTC MCAD solutions, Enser is one of the few program members to earn the Windchill® Preferred Service Provider status in the country and is certified for Windchill Product Life Cycle sales and implementations.

"This merger enables us to service our customers more effectively," said Marco Arnone, Executive Vice President and General Manager, Enser Corporation. "Today's agreement enables us to build upon the years of experience the two companies have with PTC products to make sure our customers continue to be successful as we expand our business." Monty Clark, Principal founder of RedBolt agrees, "The merger of our two companies will bring extensive value to our customers. The depth and breath of our PTC experience is second to none."

###
